Subject: CHI Investigation - War Memorial Hospital

Dear all

You will know that the above investigation has been going on for some time now. I want to let you know as a matter of courtesy that the report is likely to be published early July possibly first week. I know that all of you were spoken to at some point to seek your views on particular aspects of that service that impacts on Portsmouth Hospitals. From my assessment of the situation there are possibly two areas in the report that might generate some interest for PHT. One relates to comments made to CHI from the then Community Trust that elderly patients were being sent out "early" and the other relates to the service level agreements we have with pharmacy.

It would be helpful if you could provide me with a brief (very) overview of the discussions you had during the interview so that I can prepare a response should we need to. It may well be that this is not going to be necessary based on the conversation I had with CHI but I would prefer to be ready. Jeff could you
