Dear Ursula,

Th areas discussed at my CHI interview were as follows (as far as I can remember)

Communication between myself and staff at GWMH and other PHT staff.

What I do at GWMH and how long I spend on each ward.

Certain drugs especially in syringe drivers and prn drugs.

Thats all I can think of at the moment.

Dear all

You will know that the above investigation has been going on for some time now. I want to
