Subject: FW: new project

Hi Richard

I've put in how many days of yours and David's time this would cover - it is often possible on these things to put in a caveat that should more time be required than is allowed for in the costings, this should be reasonably negotiated when it becomes clear.

I have also increased the overhead to the University norm for DoH projects which is 60%. Please let me have a copy of the application and a salmon form in due course.

Best wishes
Jan

Jan

Here is an outline of the costs for this new project, requested by the CMO. It is difficult to quantify. Thanks for your thoughts

Richard
