Subject: Gosport War Memorial Hospital

Dear Mr Watts

We met a few weeks ago to discuss the review I am undertaking. The aim of this message is to ask whether you have been able to come to a view as to whether I may review the clinical records of the patients about whom relatives have raised concerns. I assume that you do hold these records.

The reason for reviewing the records would be to establish the features that have given rise to concern. The information would be of considerable help in guiding my own review
