Peter

Thanks to everyone for getting the death entries to me so efficiently. As you can imagine, I am busy entering the data into my database.

The batch for 2001 did not include the 5 indicated as signed by Dr Barton (see your message below). Are these somewhere in the pipeline?

Richard

Peter

These look more or less as expected - the case figures match the information from the hospital certificate book counterfoils.

Richard

Provisional figures - we are just checking the certificates

It would be good to include key dates in the analysis (e.g. when she stopped working in the hospital)

Interesting - she will not have worked at the Hospital in 2002, and may have adopted a policy of not signing certs in general practice (if any were needed); this finding could therefore be reassuring. However, a sight of all the data from 1993 would be helpful before drawing a firm conclusion.

We didn't find any - does that make any sense?

Thanks - does this mean there were no Dr Barton deaths in 2002, or that your team has not gone through these yet?

Richard

We are about halfway through the other years (which include lots of Dr Bartons). Should all be done later this week/early next.

Peter
