Hello Professor Baker,

We are able to break the data down by sex, but only for more recent figures (sometime after 1993).

I can schedule this request in - our normal response time is about 10 working days. Please can you let me know if this is not going to be ok.

Kind regards,  
Katy

Subject: Gosport practice lists

Dear Adrian

Katy Schwarz and yourself provided me with information about 3 practices in Gosport for the review I am undertaking. Thanks again for organising these details.

I am continuing with various analyses, and have identified a need for additional information. The spreadsheets contained the numbers of patients in the three age groups registered with each general practitioner, 1985-2002. It was great you had this information. However, it would help the analysis to categorise patients by sex as well - is the information easily available for at least some of the years in question?

I am sorry to make a further request, but the 'devil is in the detail'.

Thanks

Professor Richard Baker
