Many thanks. I think that is indeed one of the concerns; the other is that Dr B, says our legal advice, should have a chance to comment upon the report before it is published.

I'll make sure you are kept informed on what we intend to do next.

Colin

Dear Mr Brechin and Mr Phillips

With respect to the release of information requested, I have no concerns of my own. However, you may already be seeking a view from the GMC on whether release of the information would compromise their continuing proceedings.

Professor Baker

I attach a letter about a Freedom of Information Act request we've had in connection with your GWMH report. My apologies for sending this to you out of the blue and for the short deadline for your response.

I'd be happy to discuss anything in the letter, but should add that I've only recently started working in this section of the Department of Health and haven't yet had a chance to start looking for the information the inquirer's after.
