Subject: FW: Gosport practice lists

Sensitivity: Confidential

Hello Professor Baker

Spreadsheet attached giving the breakdown of list sizes by gender. The first available quarter for which we have this information is April 1996.

Please also note there are some slight discrepancies between the two sets of figures (max +/- 6). This is because both sets of information came from separate data sources, and the figures I provide this time were taken on the day before the previous figures. (Hope that makes sense)

Any queries just email or phone

Yours sincerely
Dave Arnold

Hello Richard,

We have set a deadline of the 15th April for this request, but we will get the information to you sooner if at all possible.

Kind regards,
Katy

Katy

How is the breakdown getting on? Do you think the details will be ready by

early next week?

Richard Baker

Hello Professor Baker,

We are able to break the data down by sex, but only for more recent figures (sometime after 1993).

I can schedule this request in - our normal response time is about 10 working days. Please can you let me know if this is not going to be ok.

Kind regards,
Katy

Dear Adrian

Katy Schwarz and yourself provided me with information about 3 practices in Gosport for the review I am undertaking. Thanks again for organising these details.

I am continuing with various analyses, and have identified a need for additional information. The spreadsheets contained the numbers of patients in the three age groups registered with each general practitioner, 1985-2002. It was great you had this information. However, it would help the analysis to categorise patients by sex as well - is the information easily

available for at least some of the years in question?

I am sorry to make a further request, but the 'devil is in the detail'.

Thanks

Professor Richard Baker
