1		CHI Recommendation	HantsPT Response
2			
3	local pre	t Hampshire PCT and Fareham and Gosport PCT should review all scribing guidelines to ensure their appropriateness for the current levels adency of the patients on the wards.	Prescribing guidelines for mental health are available and highlight age specific issues. All wards havecopies of the palliative care handbook and analgesic ladder
	services in case	eham and Gosport PCT should review the provision of pharmacy to Dryad, Daedalus and Sultan wards, taking into account the change nix and use of these wards in recent years. Consideration should be including pharmacy input into regular ward rounds.	4The olderpersons specialist mental health pharmacist for fareham and Gosport and East hants is based at GWMH and monitors charts3times weekly as well as attending ward rounds on a rotational basis .Annual leave and sickness cover is provided to a minimum of twiceweekly chart monitoring.Access to a clinical pharmacist at other times is available via phone.
	place to caring for prescrib	ority, the Fareham and Gosport PCT must ensure that a system is in routinely review and monitor prescribing of all medicines on wards or older people. This should include a review of recent diamorphine ing on Sultan ward. Consideration must be given to the adequacy of IT available to facilitate this.	SeeAbove . The trust has a policy covering procedures for the prescribing storage and administration of medicines. The lastest version was rolled out with training to support its implementation training on the policy forms part of essential training for medical and nursing staffon medicines mamagement. Adherance to the policy is audited. JAC reports are monitored monthly and FP10 data quartlerly by clinical pharmacist who highlights and investigates anomolies. CD audits are undertaken quarterly and CD requisitions are countersigned by clinical pharmacist or doctor
	the phar	eham and Gosport PCT and East Hampshire PCT, in conjunction with macy department, must ensure that all relevant staff including GPs are to the prescription, administration, review and recording of medicines for ople.	No Gps are involved with HPT GWMH wards. Doctors are either specialist in older people or working under the supervison of specialists. Need something about training /CPD received by docs here Please could Rosie provide. All doctors in training receive training on the medicines policy and sign to indicate they have familiarised themselves with the trust policy. The recent trust audict on the trust medicines policy has individual prescriber identifiers which will allow feedback to individual prescribers and their consultants or in the case of consultants the medical director. Nurse and MHPs receive training on the trust medicines policy and again have signed to say they have familiarised themselves with the contents. Audits on administration have been undertaken and will be fedback to staff
