Subject: Contacting Clinicians

Dear Martin

Further to our conversation yesterday and your helpful message today, I have established that there are 3 individuals who I need to make contact with. Two are within the Fareham locality and one is based at Moorgreen (not Newtown House as I had at first been told). You kindly undertook to brief the locality managers – so I assume that will be Martin L-G and Katherine (rather than Michelle for Newtown).

One of the clinicians is on holiday this week and I have left messages for the other two but it may be next week before I get to speak to them all. I will let you know once contact has been established.

In due course I will do a proper briefing for yourself, Helen Matthews, Nick Yeo, Comms Team and any others who will need to be informed.

One aspect I did not discuss with you but which came up at the meeting on Monday was that all Trusts were being urged to review their action plans as a result of the CHI Investigation which occurred in 2002.

As this was at the time of the Trusts being split up, and given that I don't think there were any direct implications for mental health services, I'm not sure if the older persons mental health services in the GWMH area did any 'action planning'. I will need to follow this up with Martin Le Good so perhaps when you brief him about the issue, you could mention this please so he is forewarned?

I will keep you informed.

Regards

Catherine Watson
