Dear Anne

Notes review – late –

Many thanks for updating me on the current situation regarding the proposed review by of her late medical records.

I understand you have spoken to her at length on the telephone recently, and that for the time being, she would prefer to leave things as they are. Therefore, I am returning her casenotes to you for safe-keeping.

Please let me know if she changes her mind at any time in the future, as I would be more than happy to visit her in Gosport to discuss her concerns.

Best wishes

Yours sincerely

Graeme Dewhurst
